About EBMed

EBMed is a non-profit 501(c)(3) educational organization dedicated to: (1) improving GI patient care through CME education utilizing evidence-based medicine principles; and, (2) advancing the careers of women, first-generation college graduates, and under-represented minorities in academic GI careers through mentorship and sponsorship opportunities.

Our Expertise

Our Board of Directors have decades of experience in developing impactful GI educational initiatives, social media outreach, patient advocacy, and mentoring the next generation of gastroenterologists.

Our Areas of Focus

- Inflammatory Bowel Diseases
- Esophageal Disorders
- GI Motility Disorders
- Future of GI: Artificial Intelligence, Endoscopic Innovation, and Obesity

GI Debates Hybrid Conference

EBMed's GI Debates is a hybrid meeting combining CME, and networking/mentoring activities for our GI trainees. One of EBMed's goals is to facilitate the careers of women, first-generation college graduates, and under-represented minorities in academic gastroenterology and a large proportion of our faculty fit this goal.

The CME portion of the meeting will focus on: (a) inflammatory bowel disease; (b) esophageal disorders, including acid-peptic disorders and eosinophilic esophagitis; (c) GI motility disorders, including irritable bowel syndrome and (d) endoscopic innovations. Interactive formats will be emphasized with minimal traditional lectures.

Specific educational formats include:

- **Debate:** Two senior faculty will debate a provocative clinical question with a third senior faculty serving as judge, and a jury of early-career GI faculty will vote on most persuasive presentation. *[Note: Early-Career GI faculty consist of advanced GI fellows in IBD, GI motility, esophageal disorders or promising academic gastroenterologists who completed training within the past 5 years.]*
- **Case Presentation:** Brief case/patient presentation (HIPAA-compliant) focused on specific treatment options.
- **"Top 5 Tips:"** Nationally-recognized leader discussing how she integrates clinical trial data and clinical experience when managing patients.
- **Guideline Updates:** Nationally-recognized leader reviews key concepts from GI society guidelines, identifies controversies, and discusses how they integrate recommendations into their management.

Networking/Mentoring Activities

EBMed's GI Debates conference is designed to facilitate interaction between senior faculty and GI fellows and GI-APPs, including:

- **GI Trainees Workshop** on Friday afternoon, Feb 6, including "Guide to the Guidelines Update" from Brennan Spiegel, MD followed by "Success Skills Beyond GI Fellowship" planned by Neena Abraham, MD, Director of the ACG Institute Center for Leadership, Ethics, and Equity.
- **Finding the Right Fit: Opportunities in Different GI Settings** on Friday evening, Feb 6 is a dinner program exploring the benefits and limitations of working in academic GI, private equity GI supergroups, locum tenens, and more.
- **"Office Hours"** on Saturday afternoon, Feb 7, offers 1:1 meetings with senior faculty to discuss research opportunities and career development at EBMed's dedicated site on the Fort Lauderdale beach, adjacent to the Westin Fort Lauderdale Beach Resort. Refreshments will be served and pre-meeting sign-ups will be offered.
- **EBMed's Karaoke Saturday Night** is a new tradition for this meeting. Partner with your favorite faculty to sing the night away in this new EBMed tradition.

Unique Features of Our Program:

We've designed this meeting in response to comments from multiple stakeholders who have attended similar meetings. Specifically,

- **The location, Fort Lauderdale,** can be reached by direct flights from most major cities in the East, South, and Midwestern US, and the hotel

location is a 15-20 minute drive from the airport, making it easy for you to fly to the meeting on Friday morning. Therefore, you will not need to spend an additional night away from home unless the industry sponsor chooses to hold an optional advisory board on Friday morning.

- **GI-APP Integration:** Current GI practice is frequently a collaboration between GI-APPs and gastroenterologists. Therefore, our 2026 program includes leading GI-APP faculty and gastroenterologist collaboration, and 8-10 promising GI-APPs will be awarded travel grants to attend.
- **Reception** will be held prior to dinner on Friday evening. This is another important aspect of networking between early-career and senior GI faculty and industry attendees.
- **Approved for 7.75 hours of continuing education** for physicians, PA-Cs and NPs.
- **VuMedi, a leading video education platform** for physicians, is partnering with EBMed to post CME presentations to over 450,000 users. **Our 2025 program had over 4,000 individual views by more than 1,600 users.**
